

Intercontinental Pharma

About-Us

Presenting Intercontinental Pharma Inc.

In 2012, as we sought to establish our company, it became apparent that the Caribbean Island Nations did not have the possibility of obtaining quality pharmaceutical products at a fair price. Since that time, we have become the “go-to” company when quantities or excellent quality cannot be obtained from large manufacturers.

We have been able to drastically reduce the prices on oncology medications, injectables and other expensive pharmaceuticals by 60-70%. Our focus is and always has been on Quality and Pricing.

We have rigorous standards for all of our products. Our pharmaceutical manufacturer must pass the WHO-GMP, FDA, UK-MHRA, and other international standards before we sell the products.

We are always available for last-minute and emergency needs.

ICP Pharma – (Intercontinental Pharma) Inc., also known as ICP, provides high-quality pharmaceuticals. Our current markets include the Caribbean Island Nations, Central and South America.

We continue to concentrate on Customer Service and Quality Products for all of our Clients, regardless of location. We strive to fulfill the needs of our Clients who include both governments and distributors in these nations.
